Certified by _____ DATE _____

Flight Certification Procedures

1. All members, new or renewing, who are **NOT** currently certified **must** fly with an instructor until solo flight certification is completed. Any currently certified member may act as an instructor.
2. Certification requires the pilot to fly two identical flights using the maneuvers listed above. One flight is to be flown in a right hand pattern and the other is to be flown in a left hand pattern to demonstrate good control of the aircraft in both directions. Wind speed and direction will be taken into account in satisfying this requirement.
3. A list of instructors approved by the Board of Directors is published on the Tri-County Barnstormers web site.
