PRESIDENTS CORNER

Mayday, mayday lost control of your plane - make sure you have your drone number on it at a minimum and your contact info to help others get it back to you. Many reasons loss can happen from disorientation - is it flying towards me or away from me and bad sunlight in the eyes or too small to tell, radio communication drop, or electronics failure. So next time you go through preflight checks look and see if your plane is marked with the minimum requirements and think about adding your direct contact info too.

April combat was a great success with lots of fun had by the pilots and spectators. We started with 10' streamers and then increased to 20'. Still had a hard time getting ribbon cuts. All planes that were flown survived the day to fly again. Photos are on the club Facebook page.

Field improvements continue and thanks to all the members that are supporting the work.

Come on out for Big Bird May 22- 24. Bring a plane, buy a raffle, enjoy the food, and our new spectating spot in the climate controlled viewing area. Rain date TBD if weather does not cooperate.

Regards
Joe

Meetings are held on the first Saturday of the month at the Flying field at 9:30 am
We hope to see you there.

Words from the VP

Don't forget our Big Bird is coming up on May 22- May 24 don't miss this one it will be a good time... we will have a great dinner catered for that Friday night Dinner... and BBQ for Saturdays Lunch...

The new building is really awesome and very comfortable to hang out in now that the A\C is up and working nicely...

Great job so far with keeping up with field maintenance..

I will just add we really need help with keeping up with ant control if you're out there and see some ant piles please put out some poison... and one last thing!!!! Get your volunteer days done.... when you come out and do something for the field make sure to wright it down on the volunteer sheet.. time is running out to get this done...

see you all at the field...
